

Computing

We will use the software Scratch Junior to create a dance routine. We will also be creating and debugging simple programs.

Music

Children will be exploring sounds and will create a soundscape to a well-known story.

Budding Builders

&

Marvellous Makers

Science

Plants- Pupils will be able to identify and name a variety of common wild and garden plants, including deciduous and evergreen trees and identify and describe the basic structure of a variety of common flowering plants, including trees.

Design and Technology

Children will be creating their own wacky windmill. Children will explore different ways of making windmill bases and sails with classroom and craft materials, learning how to join materials together and make axles allowing sails to spin in the wind.

Art

Children will look at primary colours and how to create secondary colours. Children will create their very own season's scene using a range of materials.

Summer 2018

Key Stage 1

PSHE

This term we will be looking at what makes a perfect friendship and also looking at how we prepare for change in preparation for the end of the year.

PE

We will be learning about the different skills involved in athletics and building up our agility, teamwork and coordination.

History

Children will be learning about different communications through History, focussing on how they have changed over time. Children will also be learning about important people and why they are significant. They will comparing these and finding out about their different inventions.

Geography

Children will be looking at magical mapping they will be able to name different types of maps and explain some key features of maps as well as draw a simple sketch map of the school and local area.

- Use an atlas to locate the seven continents
