

## HISTORY

How have toys changed over time? Learn about toys from the past.

Explore our own class toy museum.

## PE

Practice throwing and catching a ball.  
Use our skills in the games we play.

## SCIENCE

Materials - Identify, name and describe materials and their properties.

Can you squash, pull or squeeze a material to change its shape? Which material would be best to use to make a waterproof coat? Uniforms? Can you explain why?

## DESIGN TECHNOLOGY/ART

Exploring and learning about Shadow Puppets. Let's make our own and have a class performance!

Art Use a range of materials to create a colourful collage inspired by the work of Wassily Kandinkski.

Pracitising our sketching using toy models.

## PSHE

Understanding feelings, and why and how they lead us to behave the way we do - excited, proud, surprised, hopeful, disappointed, worried and anxious.

## COMPUTING

Learning about how to stay safe on the internet. Use hyperlinks to search for information to answer questions.

# A TOY STORY

## MUSIC

Explore beat through using movement, body percussion and instruments. Combine a steady beat with word rhythms, and explore changes in tempo.

Identify and explore changes in pitch through singing, percussion and listening games.
